

Etiprint Print & Apply

The perfect solution for print on demand labelling where the last printed label gets directly onto the product. The Print & Apply system from Collamat® is rugged built and fulfils all needs to an industrial application concerning reliability, handling, and performance. The modular applicator system makes top, bottom, left, right or over edge labelling possible with the same base module. The selection of modular applicators is continuously expanded. The modular concept involves also the printer solutions where most common print engines like Sato, Zebra, and TEC can be integrated in the unit.

FEATURES

- Flexible printing – Each label can be printed on demand with variable data
- Open frame design – Designed to integrate OEM print engines
- Flexibility – Can be used for side, top, bottom, and over edge applications
- Compact design – Made for industrial environments and easy integration
- Swiss quality – Highly durable mechanics suitable for rugged conditions
- Increasing product information – Create barcodes and graphics on your labels
- Adaptability – Different applicators available for various tasks
- Communication – Printing directly from PC, Network or from internal memory

TECHNICAL DATA

Label reel size core / ext:	40 mm / 300 mm
Min. label width:	25 mm
Min. label length:	30 mm
Max label length:	150 mm
Labels per minute (max):	80 (depending on printer)
Printer technology:	Thermal direct / thermal transfer technology
Printer data:	Depending on the fitted model
Control system:	Configurable PLC system
Dimensions:	447 x 449 x 725 mm (length x depth x height)
Approbation:	CE/IEC/Nema

All data are indicative and may be subject to alteration
